Tray Tag Marking Service

Unique identification of instrument sets

An effective traceability system requires all instrument sets to have unique identification codes, combined with durable and long-lasting tray tags.

Meditrax Tray Tags can be marked with a variety of text, identification codes and identification bar-codes if required and can include:

- Tray name
- Tray identification number
- 2-D or 1-D barcode identification number

Key Features

- High quality plastic tray tags
- Designed to withstand decontamination and sterilization processes
- Suitable for laser marking for permanent tray identification
- Offer security, longevity and complete assurance of tray identification
