

# Oasis Flushmee Moist Wipes

Oasis™ Flushmee has been developed as a flushable and macerator-friendly wipe that ends the problem of blocked drains.

- Contenance Care Wipes
- Flushable Wipes
- Macerator Friendly Wipes
- No More Blocked Drains
- Pleasantly scented

There is no need to remove the soiled wipe from the bedpan or commode. This saves time for nursing staff and reduces clinical waste and infection risks.

## Gentle and Effective Cleansing

Oasis™ Flushmee is impregnated with a gentle formula containing no soap, alcohol or lanolin and is pH-balanced to 5.5, the natural acidity level of the skin.

The wipes are agreeably fragranced to please the adult market and are also safe to use on babies. They help eliminate odours to make life more comfortable for carer and patient alike. Oasis™ Flushmee wipes are Z-folded to aid infection control, as only one wipe is ever visible at any time. Oasis Flushmee comes in a single patient pack to help reduce wastage and costs associated with larger pack sizes.
