

## BATCH RECALL PLUS II module

### features : batch tracking

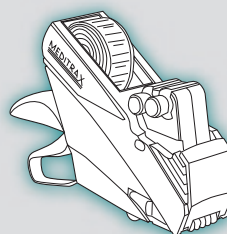

### accountability & traceability

The MEDITRAX® Batch Recall Plus II Module provides tracking of all items sterilized by batch through to the patient. This simple, economical, highly effective system ensures all documentation is recorded pertinent to current requirements.

In addition to tracking responsibility for each critical part in the sterilizer process is accounted for, including the recording of non conformance for quality assurance purposes.

The easy to follow documentation makes use simple and allows collation of all information including printouts, Bowie-Dick tests, Biological Indicator results etc.

### manual recording

#### training

Austmel provides MEDITRAX® System Inservice at the point of implementation. Courses are run on a person-to-person basis ensuring rapid absorption. Advanced courses are designed to train the trainer where required. MEDITRAX® training systems comply with the AS/NZS 4187:2003 standards and documentation.

#### one-on-one MEDITRAX® customer support

Austmel Pty Ltd is able to offer one-on-one support during office hours on our 1800 074 085 service. This is a valuable service to healthcare personnel who require immediate technical support to use the system. This service is a complete one-on-one person to person level. Additionally IT Remote Access Tech-Support provides quick on-line diagnosis and repair of systems to clients requiring rapid response under maintenance contracts.

#### documentation

MEDITRAX® documentation is built on the philosophy of paper waste minimisation, taking into account policies and procedures relating to the processing of items being sterilised in healthcare facilities. All aspects of the complex requirements are clearly and easily followed.

#### background

Austmel Pty. Ltd is an Australian owned company established in 1974. Austmel have been directly involved in the supply and development of Sterility Assurance products for over 30 years. Our unique products and systems extend into both the Health Care and Industrial markets, including :

- MEDITRAX® Accountability & Traceability Systems
- Biological and Chemical Sterilization Indicators
- Bowie-Dick Tests
- Sterilization Packaging
- Quality Assurance Consultation
- TMI Electronic Data Loggers
- Surgical Disposables
