

batch recall plus II SURGERY module

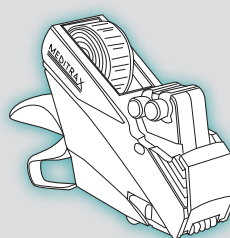

MEDITRAX
SMART TRACKING SYSTEM

accountability & traceability

The MEDITRAX® Batch Recall Plus II SURGERY module provides tracking of all items sterilized by batch through to the patient. This simple, economical, highly effective system ensures all documentation is recorded pertinent to current AS/NZS 4815 standards.

In addition to tracking, responsibility for each critical part in the sterilizer process is accounted for, including the recording of non conformance for quality assurance purposes.

The easy to follow documentation makes use simple and allows collation of all information including printouts, Bowie-Dick tests, Biological Indicator results etc.

features : batch tracking

standard recording

components

The MEDITRAX® Batch Recall Plus II SURGERY module starter pack includes :

Qty	Description	Code
1	label applicator	MHG1800
1	label applicator CD instructions	CD1800
1	batch recall plus II log book	MH/BRPII

accountability & traceability

training

Austmel provides MEDITRAX® System Inservice at the point of implementation. Courses are run on a person-to-person basis ensuring rapid absorption. Advanced courses are designed to train the trainer where required. MEDITRAX® training systems comply with the AS/NZS 4815 standards and documentation.

one-on-one MEDITRAX® customer support

Austmel Pty Ltd is able to offer one-on-one support during office hours on our toll free phone service. This is a valuable service to healthcare personnel who require immediate technical support to use the system. This service is a complete one-on-one person to person level. Additionally IT Remote Access Tech-Support provides quick on-line diagnosis and repair of systems to clients requiring rapid response under maintenance contracts.

documentation

MEDITRAX® documentation is built on the philosophy of paper waste minimisation, taking into account policies and procedures relating to the processing of items being sterilised in healthcare facilities. All aspects of the complex requirements are clearly and easily followed.

background

Austmel Pty Ltd is an Australian owned company established in 1974. Austmel have been directly involved in the supply and development of Sterility Assurance products for over 30 years. Our unique products and systems extend into both the Health Care and Industrials markets, including :

- MEDITRAX® Accountability & Traceability Systems
- Biological and Chemical Sterilization Indicators
- Bowie-Dick Tests
- Sterilization Packaging
- Quality Assurance Consultation
- TMI Electronic Data Loggers
- Surgical Disposables
