

BENCHMARKING module

quality tool

The MEDITRAX® Benchmarking Module is a quality system tool for the accurate recording and analysis of non conformances that occur at any stage in the production, storage or use of sterile products.

This module is an excellent management review tool that provides objective evidence of the trends in the performance and pinpoints waste. The MEDITRAX® Benchmarking Module can be used as an add-on module to any of the MEDITRAX® Tracking and Accountability Systems.

features : non conformance tracking

manual recording

training

Austmel provides MEDITRAX® System Inservice at the point of implementation. Courses are run on a person-to-person basis ensuring rapid absorption. Advanced courses are designed to train the trainer where required. MEDITRAX® training systems comply with the AS/NZS 4187:2003 standards and documentation.

one-on-one MEDITRAX® customer support

Austmel Pty Ltd is able to offer one-on-one support during office hours on our 1800 074 085 service. This is a valuable service to healthcare personnel who require immediate technical support to use the system. This service is a complete one-on-one person to person level. Additionally IT Remote Access Tech-Support provides quick on-line diagnosis and repair of systems to clients requiring rapid response under maintenance contracts.

documentation

MEDITRAX® documentation is built on the philosophy of paper waste minimisation, taking into account policies and procedures relating to the processing of items being sterilised in healthcare facilities. All aspects of the complex requirements are clearly and easily followed.
