

**Introducing the
ER-SPEC:**

- Does your ER have a problem with misplaced light sources?
- Does it take you a long time to locate a light source when one is needed?
- Are you aware how much you are currently spending on replacement light sources?
- Never waste time searching for a light source again!
- Never worry whether or not your light source and cable have been cleaned properly!
- Have a speculum and light source available in every room!

DISPOSAL

Batteries used in ER-SPEC light source are landfill friendly and can be disposed of with medical waste.

Why waste time searching for a light source...

ER-SPEC™

The Premier Speculum For Emergency Room Use

The cost of finding, cleaning, and replacing a light source in an emergency room can be well over \$100 per use! OBP Medical is proud to offer emergency room physicians the first disposable speculum with a built-in hands free disposable light source. For single use only, the ER-SPEC eliminates the time and expense of reprocessing and reduces the risk of cross-contamination in the medical setting. The ER-SPEC comes ready to use with no additional parts needed. An ultra bright LED light source is built into each unit allowing you to never worry about a light source again! The ER-SPEC is a must have instrument for all emergency rooms.

Product Features:

- Built-in battery operated light source with smoke channel for improved visibility.
- Comfortable ergonomic design for improved balance and easy maneuverability during exams.
- Locking hinges for added strength and stability.
- Will not pinch for greater patient comfort.
- **MAKE REUSABLE LIGHT SOURCES A THING OF THE PAST!**
