

TOTAL TRACEABILITY SYSTEM

upgrade

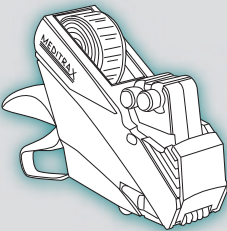

features : device tracking to patient

total traceability system

The MEDITRAX® TotalTraceability System (T.T.S.) Upgrade Module has been designed specifically for customers wishing to advance their tracking system from Batch Recall Plus II Module to the Total Traceability System. This allows utilization of existing MEDITRAX® Label Applicators thus providing an economical entry to unique pack traceability and accountability offered by the MEDITRAX® Total Traceability System.

manual recording

training
Austmel provides MEDITRAX® System Inservice at the point of implementation. Courses are run on a person-to-person basis ensuring rapid absorption. Advanced courses are designed to train the trainer where required. MEDITRAX® training systems comply with the AS/ NZS 4187:2003 standards and documentation.

one-on-one MEDITRAX® customer support
Austmel Pty Ltd is able to offer one-on-one support during office hours on our 1800 074 085 service. This is a valuable service to healthcare personnel who require immediate technical support to use the system. This service is a complete one-on-one person to person level. Additionally IT Remote Access Tech-Support provides quick on-line diagnosis and repair of systems to clients requiring rapid response under maintenance contracts.

documentation
MEDITRAX® documentation is built on the philosophy of paper waste minimisation, taking into account policies and procedures relating to the processing of items being sterilised in healthcare facilities. All aspects of the complex requirements are clearly and easily followed.

background
Austmel Pty. Ltd is an Australian owned company established in 1974. Austmel have been directly involved in the supply and development of Sterility Assurance products for over 30 years. Our unique products and systems extend into both the Health Care and Industrials markets, including :
