

WASHER DISINFECTOR BATCH module

MEDITRAX
SMART TRACKING SYSTEM

accountability & traceability

“If it’s not clean it can’t be sterile”

The MEDITRAX® Washer Disinfector Batch module provides systematic documentation of all items passing through the decontamination process including high risk instrumentation. This includes all information regarding items processed, cycle type and responsible staff involved. The MEDITRAX® Washer Disinfector Batch module is suitable for both automated and manual wash systems.

features : instrument tracking

standard recording
